Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party  
tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact [team@neverletgo.com](mailto:team@neverletgo.com).

DESCRIPTION

Note: Only to be used in conjunction with the NLG Spacenet 2.0 (101672) and correct installation is the users responsibility  
 The NLG Spacenet™ 2.0 Replacement Straps have been designed to extend the lifespan of your Spacenet™ 2.0 catch net system, ensuring continued safety and performance when working at height.  
 Over time, straps can become worn or damaged through regular use in demanding work environments. These replacement straps allow you to maintain the integrity of your Spacenet™ 2.0 without the need to replace the entire system, providing a cost-effective solution for ongoing safety.  
 Easy to install, the replacement straps can be fitted quickly without specialist tools or training, minimizing downtime and ensuring your catch net system remains operational. Each strap is manufactured to the same high standards as the original components, maintaining the load-rated performance and reliability that the Spacenet™ 2.0 is known for.  
 By replacing worn straps promptly, you can ensure your Spacenet™ 2.0 continues to provide reliable backup protection for falling materials and tools, keeping your workplace safe.

FEATURES

Easy installation  
 Adjustable design  
 Provide an extended lifespan to your Spacenet™ 2.0

#### INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
